

Home Education Planning Templates

These templates were created as a result of our long range planning for the home education of our children.

They are offered here in the generic template form for your use.

Our learning lifestyle is relatively flexible in its approach so there are many areas where the cells have been merged together or left blank on our planner, but hopefully there is enough use in this chart for you whatever your style.

Pages 2,3&4 are a **Long Range Education Plan** for printing out and filling in as is.

Page 5 **Blank Long Range Education Plan** in case your subject areas or age/stage divisions are different.

I find the visual plan-at-a-glance approach helps considerably to see what material is planned for any one subject area and where necessary to increase or decrease the intensity in that subject the following year.

It is helpful to consider your child's learning modality (and vary materials to strengthen weak areas!) as well as when pre-requisite subjects need to be planned before the next course of study ie math before certain sciences.

After that there is an **Age and Stage** chart to help with the planning of each and every family member.

Would you please leave the attribution in the footer so that others know where to send feedback so that I can continue to improve the design.

Long Range Education Plan

Name:	4-5 years	5-6 years	6-7 yrs	7-8 years	8-9 years
Mathematics					
English					
History					
Science					
Worldview					
Foreign Languages					
Life Skills, Art, Music, IT					
Physical Education Sport					
Notes:					

Long Range Education Plan

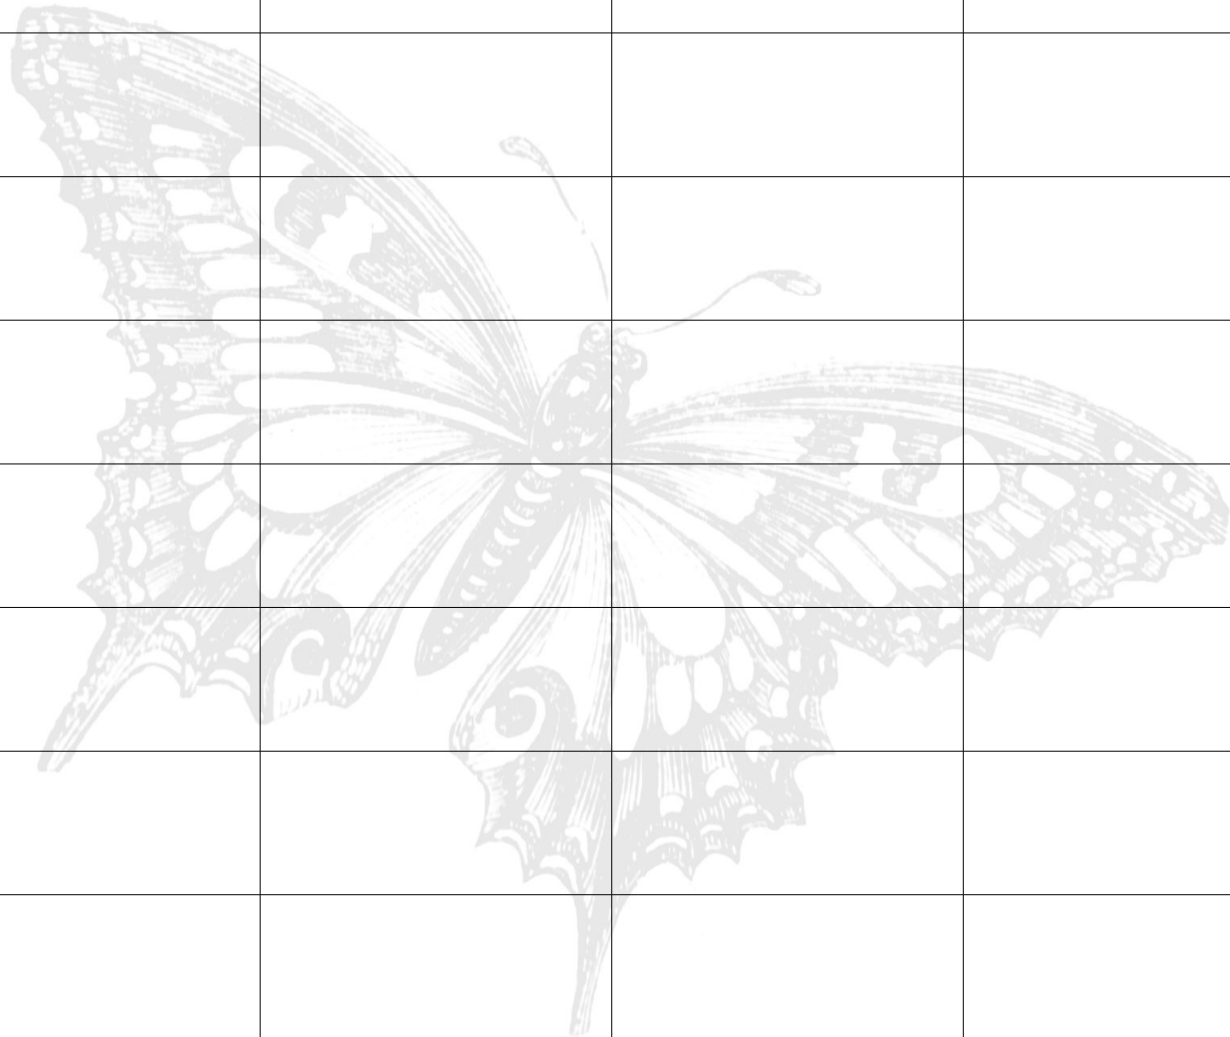

Name:	9-10 years	10-11years	11-12 years	12-13 years	13-14 years
Mathematics					
English					
History					
Science
